

I Can't Draw...Until I Practice! Cars From Behind

Read, like a book, from left to right. Look for the simplest shapes and start there. One at a time, add shapes and lines until the picture is complete. Practice! Practice! Practice! I looked at actual objects and photos to figure out how to draw these images. Step by step lessons build confidence, but drawing from life, that's the best. Mistakes are our friends. Enjoy making "mistakes", goofy drawings you might not like; it is how we learn.

1. Start with a geometric shape.

2. Identify new lines & shapes & draw.

3. Look for more new shapes & lines and continue drawing.

4.

5.

6.

Now, that you've drawn a van, put it in a picture. Add other cars. Remember, please don't copy my idea. Make up your own. Use your imagination.

Or draw the van, add scenery, and fill the whole page to create a finished drawing.

Once you learn to draw a step by step image, challenge yourself. Look & draw all you see. You can do it. Look at the van above. What shapes & lines would you use to draw this?
