

# How to Use a TEXTURE BOARD

There are many ways to add texture to an image. This is just one idea. Make up your own.

## 1. Draw an image.

Learn how to draw a better image by using the ABCs of Art, also known as the elements & principles of design. Find this & other essential information for artists at [www.awesomeartists.com](http://www.awesomeartists.com).

## 2. Add texture.

Place your paper on top of a textured object or a texture board, and color. A soft writing instrument will work; crayon works best. Some textured objects work better than others. Why not experiment?
